Net Lending/(Borrowing) for Financial Year	,	208,359	-	221,274

The Uniform Presentation of Finances highlights the operating surplus/(deficit) measure which is considered the most critical indicator of Council's financial performance.

It also includes a measure known as net lending/(borrowing) as the bottom line, which takes account of both operating & capital activities for the financial year. Achieving a zero result on net lending/(borrowing) essentially means that the Council has met all of it's operating & capital expenditure from the current year's income.

Note that financing and some investing activities are excluded from the Uniform Presentation.
