1 Introduction

1.1 Role of the Guideline

- 1.1.1 The Essential Services Commission of South Australia (**Commission**) is established under the *Essential Services Commission Act 2002 (SA)* (**ESC Act**) as a regulator of certain essential services in South Australia, with a primary objective of protecting the long-term interests of South Australian consumers with respect to the price, quality and reliability of those essential services.
- 1.1.2 Under the **ESC Act**, the **Commission** is given specific functions, including:
- (a) to monitor and enforce compliance with and promote improvement in standards and conditions of service and supply under relevant industry regulation Acts (section 5(b)), and
 - (b) in appropriate cases, to prosecute offences against the **ESC Act** or a relevant industry regulation Act (section 5(i)).
- 1.1.3 In furtherance of those functions, pursuant to section 8 of the **ESC Act** the **Commission** has made this Guideline to specify requirements for **licensees** in relation to:
- (a) operational and compliance audits in respect of the operations carried out by **licensees** under the authority of their **licences**, and
 - (b) the reporting of information to the **Commission** to assist in the performance of its specific compliance and enforcement statutory functions under the **ESC Act**, the *Electricity Act 1996 (SA)* (**Electricity Act**), *Water Industry Act 2021 (SA)* (**WI Act**) and the *Gas Act 1997 (SA)* (**Gas Act**).
- 1.1.4 The information provided by a **licensee** pursuant to this Guideline will be used by the **Commission** to perform its various statutory functions and duties, including, but not limited to:
- (a) monitoring and enforcing the compliance of **licensees** in respect of obligations,
 - (b) providing information and reports to consumers, regulated entities and other public sector agencies regarding the performance of **licensees**, and
 - (c) using data to assist the **Commission** to make informed decisions regarding the development of regulatory frameworks, policies and procedures in respect of the water, electricity and gas industries.

1.2 Application

- 1.2.1 This Guideline applies:
- (a) in whole to the following **licensees** issued with a **licence** pursuant to Part 3 of the **Electricity Act** and **Gas Act** or Part 4 of the **WI Act**, unless the **Commission** has agreed, in writing, to alternative reporting arrangements for a specific **licensee** (subject to any conditions or requirements imposed by the **Commission**):
 - i. water **licensees** who are **minor** or **intermediate retailers**

- ii. electricity transmission **licensees** that hold a current exemption under the National Energy Retail Law and the **National Electricity Rules**, from the requirements to be a registered Network Service Provider and the operation of chapter 5 of the **National Electricity Rules**, or are a **related body corporate** of such an entity
 - iii. electricity distribution **licensees** with fewer than 50,000 connections
 - iv. electricity retail **licensees** with fewer than 50,000 connections
 - v. gas retail **licensees** with fewer than 50,000 connections, and
 - vi. gas distribution **licensees** with fewer than 50,000 connections
 - (b) in whole, or in part, to other **licensees** as notified in writing by the **Commission**, and
 - (c) to entities holding an exemption from the requirement to hold a **licence** where the **Commission** has advised the entity in writing that it is required to comply with this Guideline (in whole or in part).
- 1.2.2 This Guideline is a minimum requirement and the obligation of a **licensee** to comply with this Guideline is additional to other requirements to report information to the **Commission** including:
- (a) any obligation imposed under any other law (including any **industry codes**) applying to a **licensee's** business and does not derogate from such an obligation
 - (b) a **licensee's** obligation to report any breach of an obligation under its **licence** within the stipulated time and in the manner required, and
 - (c) the requirement to comply with a notice issued under section 29 of the **ESC Act**.

1.3 Processes for Revision

- 1.3.1 The **Commission** may, at its absolute discretion, revoke, amend or vary this Guideline from time to time when it considers such action appropriate in order to meet the needs of a **licensee**, South Australian energy or water **customers** or the **Commission**.
- 1.3.2 The **Commission** will undertake appropriate consultation with relevant **licensees** and other stakeholders in accordance with the Commission's Charter of Consultation and Regulatory Practice (as amended from time to time) before making any significant revisions to this Guideline.¹ If the amendments are of a routine nature, or required by law, the **Commission** may elect to modify the Guideline without consultation.
- 1.3.3 For all revisions to this Guideline, a commencement date will be nominated on the Amendment Record on the inside front page.

¹ The Charter can be viewed at www.escosa.sa.gov.au

2 Reporting requirements

2.1 Use of proformas to report information

- 2.1.1 The Annual Return Proformas in Annexure A set out the categories of information that have been identified by the **Commission** as necessary for the purpose of performing its statutory functions.
- 2.1.2 Those Annual Return Proformas specify how information is to be reported to the **Commission**, including general guidance notes, where relevant.
- 2.1.3 Clause 2.3.2 details the **Commission's** timing requirements for the provision of reports by a **licensee** to the **Commission**.

2.2 Information provided shall be verifiable

- 2.2.1 A **licensee** must maintain accounting and other records and reporting arrangements that enable:
 - (a) separate regulatory accounting statements to be maintained for the activities undertaken as part of its **licensed** operations
 - (b) **annual return** metrics to be measured, and
 - (c) information used in the preparation of its **annual return** to be verified.

2.3 Annual reporting

- 2.3.1 The **Commission** has determined that **licensees** to whom this guideline applies must provide an **annual return** to the **Commission** in respect of each 12 month period from 1 July to 30 June.
- 2.3.2 In respect of the **annual return**, a **licensee** must, unless agreed in writing with the **Commission**, by no later than 31 August immediately following the end of each year, submit to the **Commission**:
 - (a) an electronic copy of the **annual return** using the **Commission's** reporting proformas and conforming to the general guidance notes, and
 - (b) any other report or information identified by the **Commission** as being required from that **licensee**, in the manner and form prescribed by the **Commission**.
- 2.3.3 A **licensee's annual return** must be approved and signed by:
 - (a) the Board or Council of the **licensee**
 - (b) the Chief Executive Officer of the **licensee**
 - (c) a person holding an equivalent position to Chief Executive Officer of the **licensee**
 - (d) a person to whom the Board or Council of the **licensee** has formally delegated the exercise of the powers and functions of the **licensee** at a level equivalent to that held by a Chief Executive Officer, or

- (e) the person acting as Chief Executive Officer or equivalent position during an absence of the substantive **office holder**.

2.4 Categorisation of licensees for annual return reporting

- 2.4.1 The **Commission** has implemented a 'verified trust and accountability' (VTA) regulatory approach for small-scale network **licensees**. In accordance with the VTA approach, each small-scale network **licensee** has been transparently and publicly assessed and determined by the **Commission** to be either a **Category A licensee** or **Category B licensee** (as the case may be) in accordance with the **Licensee Categorisation Methodology**.
- 2.4.2 A **licensee's** current categorisation as a **Category A** or **Category B licensee** under the **Licensee Categorisation Methodology**, will determine if it is subject to either **Category A** or **Category B** obligations throughout this Guideline.

2.5 Annual return - Category A licensees

- 2.5.1 **Category A licensees** are required to provide an **annual return**, using the proformas set out in Annexure A, which must contain the following information:
 - (a) a list of **office holders**
 - (b) **connection** and **customer** numbers
 - (c) number of **customers** on **flexible payment arrangements**
 - (d) number of **customers** receiving a **concession** toward their energy or water bill
 - (e) number of **customers** registered as **life support customers**
 - (f) identification of any **material changes** to operations
 - (g) information on all **licensee compliance breaches** in the preceding 12 months
 - (h) information on all **licensee material service issues** in the preceding 12 months, and
 - (i) a signed **statement of assurance** confirming that it is complying with its obligations.

2.6 Annual return - Category B licensees

- 2.6.1 **Category B licensees** are required to provide an **annual return**, comprising:
 - (a) all of the above annual reporting obligations identified at 2.5.1, and
 - (b) any additional specific reporting obligations required by the **Commission** from time to time and notified to the **licensee** in writing.

2.7 Material service issues

- 2.7.1 **Licensees** must provide information to the **Commission**, as soon as reasonably practicably, in relation to any **material service issue** that arises, using the proforma AR5.

- 2.7.2 A **material service issue** report must be approved and signed by:
- (a) the Board or Council of the **licensee**, or
 - (b) the Chief Executive Officer of the **licensee**, or
 - (c) a person holding an equivalent position to Chief Executive Officer of the **licensee**, or
 - (d) a person to whom the Board or Council of the **licensee** has formally delegated the exercise of the powers and functions of the **licensee** at a level equivalent to that held by a Chief Executive Officer, or
 - (e) the person acting as Chief Executive Officer or equivalent position during an absence of the substantive **office holder**.

2.8 Material compliance breaches

- 2.8.1 In accordance with **licence** requirements, a **licensee** must notify the **Commission** if it commits a material breach of an applicable law or **industry code**, a **material compliance breach**, within 3 **business days** of becoming aware of that breach, using the proforma AR6.
- 2.8.2 A **material compliance breach** report must be approved and signed by:
- (a) the Board of Council or the **licensee**, or
 - (b) the Chief Executive Officer of the **licensee**, or
 - (c) a person holding an equivalent position to Chief Executive Officer of the **licensee**, or
 - (d) a person to whom the Board or Council of the **licensee** has formally delegated the exercise of the powers and functions of the **licensee** at a level equivalent to that held by a Chief Executive Officer, or
 - (e) the person acting as Chief Executive Officer or equivalent position during an absence of the substantive **office holder**.
- 2.8.3 The **Commission** may require a **licensee** to provide any further information that it considers appropriate following its consideration of a **material compliance breach** report.

2.9 Change of officer holders and major shareholders

- 2.9.1 A **licensee** must notify the **Commission** in writing of any changes to its **officer holders** and **major shareholders** (if applicable) within 30 **business days** of that change occurring.

2.10 Insurance

- 2.10.1 If, in accordance with its **licence** conditions, a **licensee** is required to maintain specified type of insurance, it must provide to the **Commission** as part of its **annual return** a current certificate of insurance certifying that the required insurance is adequate and appropriate given the nature of the operations carried on under the **licensee's licence** and the risks entailed in those operations.

2.11 Additional information requirements

- 2.11.1 The **Commission** may, from time to time, require additional information from a **licensee** beyond the information specified in the proformas set out in Annexure A, or notified to **Category B licensees**.
- 2.11.2 The **licensee** must, if required by the **Commission**, in a manner and form determined by the **Commission**, provide to the **Commission**:
 - (a) details of the **licensee's** financial, technical and other capacity to continue the operations authorised by its **licence**, and
 - (b) such other information as the **Commission** may require.

Annexure A – Annual Reporting Proformas

PROFORMA AR1 – Office holders

Full name	Office held	Did the officer join in the last 12 months?	Has the office held changed in the last 12 months?

General Guidance:

1. The terms '**officer**' and '**office holder**' are defined in Schedule 1.

PROFORMA AR2 – Connection and customer numbers

Connection and customer numbers	As at 30 June
Drinking water:	
• Residential customers	
• Non-residential customers	
• Total connections	
Non-drinking water:	
• Residential customers	
• Non-residential customers	
• Total connections	
Sewerage (excluding CWMS):	
• Residential customers	
• Non-residential customers	
• Total connections	
CWMS:	
• Residential customers	
• Non-residential customers	
• Total connections	
Electricity	
• Residential customers	
• Non-residential customers	
• Total connections	
Gas	
• Residential customers	
• Non-residential customers	
• Total connections	

General Guidance:

1. **Non-Drinking Water** includes recycled water and stormwater. If more than one type of **Non-Drinking Water** service is provided by a **retailer**, i.e. recycled water and stormwater, **customer** numbers for each service should be separately disclosed.
2. For the purposes of this metric, the number of **customers** is determined by the number of account holders.
3. **Connections** must be reported as **connections** to a separate parcel of land, for example where a community title exists and there are 6 dwellings on one parcel of land and each **customer** is an account holder that should be reported as one **connection** but six **customers**.

PROFORMA AR3 – Hardship

Hardship	Annual
Water retail licensees - Total number of residential customers participating in a financial hardship program as at 30 June	
Water retail licensees - Number of residential customers who entered the financial hardship program during the year	
Water retail licensees - Number of residential customers who successfully exited the financial hardship program during the year	
Water retail licensees - Total number of residential customers receiving a water concession as at 30 June	
Water retail licensees - Total number of residential customers receiving a sewerage concession as at 30 June	
Energy retail licensees - Total number of residential customers receiving an energy concession as at 30 June	
All retail licensees - Total number of residential customers on flexible payment arrangements as at 30 June	
Electricity and water licensees – total number of residential customers on registered as life support customers as at 30 June	

General Guidance:

1. **Water retail licensees** include water and sewerage (including **CWMS**) retail **licensees**.
2. **Financial hardship** means a situation where a **customer** desires to pay an account, but is unable to pay all or some of the account by the due date, due to financial difficulty
3. **Energy retail licensees** includes electricity and gas retail **licensees**.
4. **All retail licensees** includes water and sewerage (including **CWMS**) retail **licensees**, as well as electricity and gas retail **licensees**.
5. A **flexible payment arrangement** means an arrangement under which **residential customers** are given more time to pay a bill, to pay by instalments and/or to pay arrears (including any **restriction**, disconnection, restoration or reconnection charges).

PROFORMA AR4 – Material changes to operations

The **Commission** has not mandated the specific form in which information regarding **material changes to operations** is to be provided. **Licensees** should be able to meet this reporting requirement using the existing business systems and processes that are required to properly manage a **licensee's** business.

General Guidance:

1. The purpose of **material changes to operations** reporting is to enable **licensees** to report on an exception basis, rather than need to spend time and resources merely replicating annual information that has not materially changed.
2. If uncertain whether a change constitutes a **material change to operations**, a **licensee** should discuss the matter with staff of the **Commission** as early as possible, and should err on the side of caution – if uncertain then it should classify the change as material.
3. If a **licensee reports a material change(s) to operations**, the **Commission** will liaise with the **licensee** and may require further information to understand the implications that this may have for the baseline information held by the **Commission** about the **licensee**.

PROFORMA AR5 – Material service issues

	Licensee comments on the material service issue
Description of the Material service issue	
How did the material service issue occur?	
How was the material service issue addressed	
How was the material service issue (or how will it be) rectified? What were (or are) the timeframes around the rectification process?	
How did the material service issue impact customers and/or any other entities?	
What measures have been taken to prevent the material service issue re-occurring or mitigating any effects of a future occurrence?	

General Guidance:

1. This proforma is provided for the purpose of meeting **licensee** annual return requirements as well as ad-hoc **material service issue** reporting requirements.
2. All **material service issues** must be separately listed for the 12 months preceding the annual return.
3. If uncertain whether a service issue is a **material service issue**, a **licensee** should err on the side of caution and should classify the issue as material.
4. Where a **material compliance breach** causes a **material service issue**, or vice versa, a **licensee** should provide information on both the **material service issue** and the **material compliance breach**.

PROFORMA AR6 – Compliance breaches (including potential breaches)

	Licensee comments on the compliance issue
Description of the compliance breach	
How did the compliance breach occur?	
How was the compliance issue addressed	
How was the compliance breach (or how will it be) rectified? What were (or are) the timeframes around the rectification process?	
How did the compliance breach impact customers and/or any other entities?	
What measures have been taken to prevent the compliance breach re-occurring or mitigating the effects of any future occurrence?	

General Guidance:

1. This proforma is provided for the purpose of meeting **licensee** annual return requirements as well as ad hoc **material compliance breach** reporting requirements.
2. All non-compliances must be separately listed for the 12 months preceding the annual return (including **material compliance breaches**, which must also be reported to the **Commission** as soon as reasonably practical to the occurrence).
3. If uncertain whether a breach constitutes a **material compliance breach**, a **licensee** should err on the side of caution and classify the breach as material.
4. Further information in relation to indicative obligations is available on the Commission's website at: <https://www.escosa.sa.gov.au/>

PROFORMA AR7 – Statement of assurance

To: Essential Services Commission
Level 1
151 Pirie Street
ADELAIDE SA 5000

[Name of **Licensee**] reports as follows:

- (a) This **statement of assurance** is for the period [insert] and has been prepared in a manner that meets the requirements of the Regulatory Reporting Requirements for Small-scale Networks - Small-scale Networks Guideline No. 5 (**Guideline**).
- (b) The **Licensee**, having made appropriate and due enquiry, is not aware of any breach of any of its obligations under any relevant **industry code**, Regulations or Acts (**applicable obligations**), other than as detailed in this annual return.

The **Licensee** has maintained a robust compliance program during the relevant period that ensures that:

- (c) it has identified all **applicable obligations** that apply to the **Licensee**
- (d) it has a “Responsible Officer” who has operational control over the activity or work area where each of the relevant **applicable obligations** arise
- (e) it has ensured that the “Responsible Officer” has programmed the relevant **applicable obligation** into the operational procedures for the relevant activity or work area, and is accountable to the Chief Executive Officer (or equivalent) for ensuring compliance with that **applicable obligation**
- (f) the Chief Executive Officer (or equivalent) and, where relevant the Board, of the **Licensee** will be made aware of any breaches of **applicable obligations** without delay and the process for the remediation of a breach
- (g) remedial action is taken as soon as possible to rectify breaches of **applicable obligations**, and that the breach of the **applicable obligations**, and the completion of the remedial action, is reported to the Chief Executive Officer (or equivalent) and, where relevant the Board, of the **Licensee**, and
- (h) the compliance system is reviewed every two years with a view to improve it, and also where:
 - o continued breaches indicate systemic failure to ensure that the compliance system is effective and relevant, and
 - o there is a significant change to the regulatory regime, in order to update the system to accommodate the change.

The **Licensee** has established a process for signing this annual return that is in accordance with clause 2.3.3 of the Guideline.

*"We certify that we have made all necessary inquiries of appropriate **officer holders** in this organisation to confirm that management has developed a robust compliance system that meets the regulatory arrangements relating to the electricity / gas / water industry in South Australia, and that the system has been implemented and is being appropriately used by the organisation."*
