

**Find out more about offshore oil and gas activities in South Australia.**

*Drop-in sessions in August*

## Port Lincoln Drop-In Session

**Find out about the governments' roles in regulating offshore oil and gas activities off the SA coast, including in the Great Australian Bight.**

Participating SA and Australian government agencies will provide information and answer questions about:

- how oil and gas activities are approved
- offshore areas available for petroleum exploration and production
- environmental regulation
- NOPSEMA's role as an independent safety and environmental regulator
- oil pollution emergency planning and government response capability
- the Australian Marine Park Network resource development in SA

**Sessions are free and there is no need to pre-register.**
